F. No.63-02/2015-Tech.

Dated the 23rd December, 2015.

NOTICE

Attention: Applicants for registration of aquaculture inputs

It has been reported by the manufacturers of aquaculture inputs that they could not test their products in time because of the flood situation in Chennai during December 2015. They have, therefore, requested for extending the time limit for release of the first list of registered products.

The requests have been considered and it has been decided that **the first list of registered antibiotic free aquaculture inputs will now be released on 15th February, 2016** instead of 15th January, 2016.

It is also brought to the notice that subsequent lists will be released from time to time on a quarterly basis.
